

Canberra Mathematical Association

2022 Conference

Saturday August 13

Information for Presenters

Getting There

The conference is at the Australian Defence Force Academy, main entrance off Northcott Drive, Campbell.¹ See the map below. Look for the CMA signs and banners from the front entrance.

Parking

On turning into the front entrance, turn immediately left into Kapyong Road, then down to the bottom of the hill and right into one of the parking bays in Carpark 90. See the map.

The conference venue, Building 32, is a short uphill walk from the the carpark.

Walk between the two buildings (Buildings 20 and 21 on the map) with a walkway above, then continue straight ahead. Again look for the CMA banners and signs.

Registration

We don't insist that our presenters register (and pay) for the conference. However, if your organisation will pay for your registration, the money will be put to a good cause, the enhancement of Maths education in the ACT and surrounding areas.

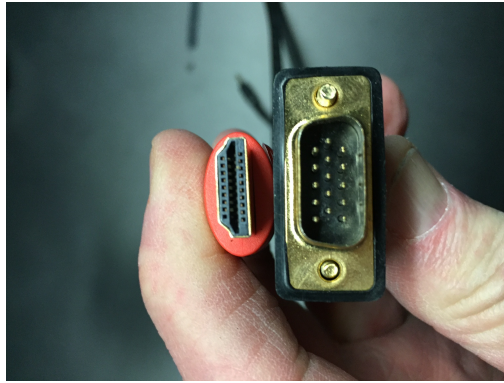

Whether you register or not, you are certainly most welcome to the lunch, morning and afternoon teas, and the President's drinks. We welcome your participation and hope you will talk to the delegates not only as part of your presentation but informally in the breaks.

You may leave any material and equipment under the stairs behind the registration desk before and after your talk.

¹the road from the back of the Russell offices to the Campbell Park offices, crossing Fairbairn Ave at a roundabout (ADFA sign)

Presentations

Each room is fitted with a computer with Windows software, internet and USB sockets, projector or multiple TV monitors, document camera, DVD player, lapel and fixed microphones, provision for connecting laptops (VGA, HDMI — see photo below) and whiteboards.

HDMI plug (top); VGA plug

Further details of the individual rooms

Room capacity in brackets

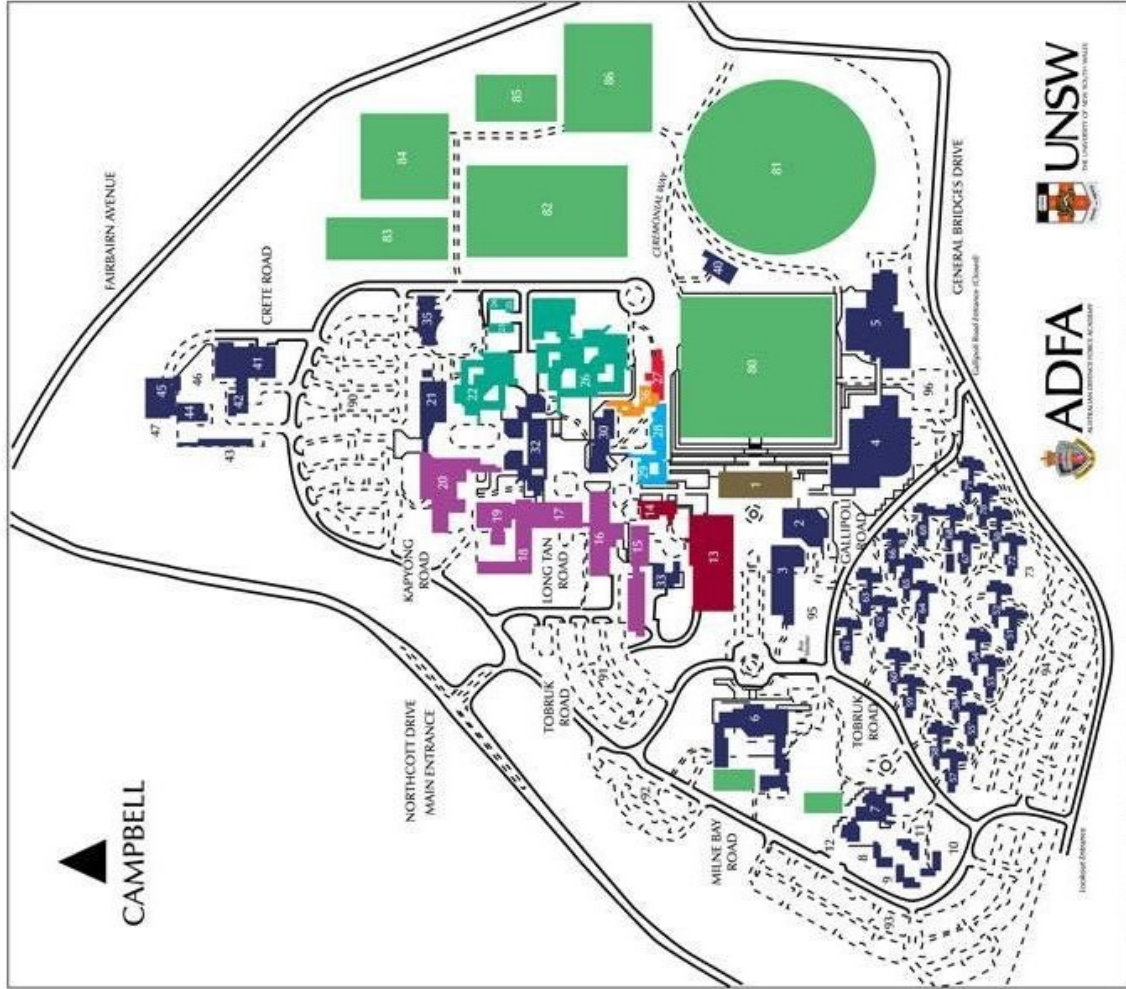

LT6 (100), **LT7** (195), **LT9** (125), **LT10** (150): tiered lecture theatres, seats with tray tables. Two projectors and two screens.

LT8 (24), **LT11** (24), **LT12** (60): flat-floored lecture theatres with rows of tables and chairs.

SR3 (36), **SR4** (70), **SR5** (45), **SR6*** (60), **SR7*** (45): flat-floored seminar rooms with movable large tables and chairs, and plenty of space.

*SR6 and SR7 have multiple TV monitors instead of a projector and single screen.

Please contact Peter McIntyre (p.mcintyre@adfa.edu.au or 0403 509 952) **if there are any problems.**
